QUALIFICATIONS FOR ADMISSION

Units completed _____

Units currently being taken _____

Units completed incomputer science exclusive of courses primarily for freshmen (i.e., beyond CMSC 150, 221, 222) _____

If you do not meet the standard qualifications for admission to the Honors Program and are applying for admission through the special recommendation of your Honors supervisor, please check here _____

PROGRAM OF STUDY (This program of study, which is a list of courses to be taken for honors credit, must total at least 3.5 units. Be sure to include: (1) two 1-unit independent studies across 2 semesters and (2) two 300-level courses, at least one of which has a 300-level course as a prerequisite.)

Course number	Course title	Units	Semester/year
CMSC340		1	
CMSC340		1	
CMSC3__		1	
CMSC3__		1	

A Complete Application Packet Will Consist of the Following:

1. The completed application form (including this page with approval signatures).
2. A letter from the applicant explaining why the student seeks to enter the departmental Honors Program and specifically how it is to be accomplished.
3. An individual letter of recommendation from the faculty supervisor.
4. An <u>advising copy</u> of the student's transcript (a BannerWeb printout is acceptable).

NOTE: Should the applicant be seeking a waiver of grade point average or of course unit requirements, both letters listed above should explain why the waiver may be justified.

Submission Procedure

One copy of the completed application packet, described above, should be submitted by the student to the Computer Science Honors Coordinator.

Students are responsible for reading and understanding all regulations of the Honors Program.

APPLICATION PREPARED BY:

I hereby apply for the CS Honors program. The honors project advisor has agreed to advise my thesis. Also, the instructors for the courses listed above have agreed to include an honors component in the respective courses for me to receive honors credit.
